

90° turn in tight space

Elbows

The Close Elbow provides an efficient turn radius for ductwork in tight spaces. Made of high-grade aluminum, the elbow turns 90° within a 4.5" space.

Featuring one male and one female snap-lock fitting, the close elbow is a great solution for dryer venting in space-limited installations.

FEATURES & BENEFITS

- Offers space-saving installation through compact design.
- Turns 90° within a 4.5" space.
- Made of high-grade aluminum.
- Ideal for dryer venting applications.
- The close elbow is the best choice for 90° turns, especially on the dryer.
- Use the Wall Offset Elbow or Dryer Offset Elbow when outlet pipe in wall protrudes up to 2.5" and cannot be trimmed.
- Dryer Offset Elbow can also be used on wall outlet pipe if pipe is too large for Wall Offset Elbow.

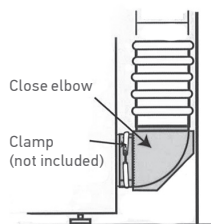

PART NUMBER/SIZING

Part #	Description	Qty
EBC90	Close elbow 90° turn	24
EBD90	Dryer Offset Elbow	20
EBW90	Wall Offset Elbow	20
